

eRemit

Simple, customisable and electronic remittances for Infor SunSystems

What is eRemit?

eRemit automatically emails the payment remittances to your suppliers from Infor SunSystems. Process the remittance run when convenient to you with customisable, updatable email messages.

Why choose eRemit?

Designed exclusively for Infor SunSystems

- Fully integrated to your Infor SunSystems data and understands payment batches generated in the ledger
- Custom design the reports to incorporate your company logo and branding
- Provides a choice of distribution methods: email, fax or print
- Ability to archive remittances sent and resend remittances at any time
- Fast implementation & rapid ROI
- Time saved by automated processing and cost reduction on print and postage
- High performance
- Designed for your business.

Saves you time & money

- Reduces paper and postage costs
- Eliminates admin time & effort
- Used in conjunction with B4B, notify suppliers of payments made, significantly reducing wasted time and effort on payment queries
- Quick implementation.

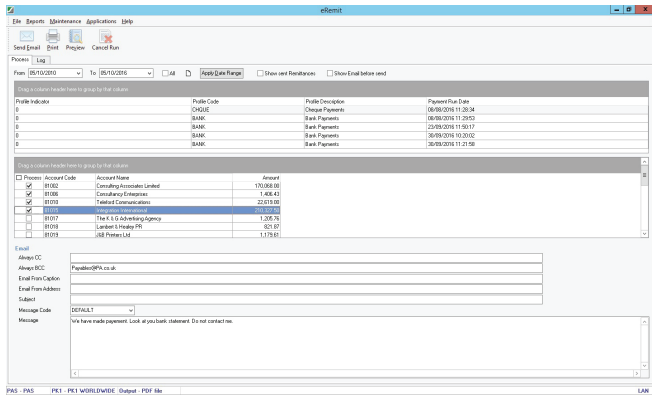

Easy to use

- Clear user interface
- Works with any SMTP mail system, including Microsoft Outlook and Lotus Notes
- Easily update the report templates with your branding
- Reports designed to incorporate your company logo and branding
- Choice of remittance email message.

eRemit is a great product as it is quick and easy. It is greatly appreciated by our suppliers with whom over 90% are now paid via EFT.

“ The ability to notify vendors of payments to their bank account at the time processing has significantly reduced the number of phone calls to verify what invoices are being paid. ”

FEATURES THAT MAKES eREMIT POWERFUL OUT OF THE BOX

-  Caters for large volume emails
-  Send reports in PDF or RTF formats
-  Option to BCC all emails sent
-  Maintain a process log of all documents sent
-  You can have custom settings by Infor SunSystems payment profile
-  eRemit can link to your faxing software with the option to fax if no email address is available
-  eRemit also has the option to create and send direct debit collection advices for customers
-  Reports for the CFO summarising the mail runs with total value of payment run for improved auditability and transparency
-  User can customise report layouts
-  Preview documents on screen
-  Maintain archives of sent remittances
-  Option to print hardcopy if no email/ fax details are present
-  Emails are automatically distributed once generated and released by the user
-  Works with any SMTP mail system, such as Microsoft Outlook and Lotus Notes
-  Payment runs can be held if it is more convenient to process remittance at a later time
